A GREAT OPPORTUNITY

At no time in recent years has the Far West had the opportunity to buy Shorthorns of the quality and pedigree, in numbers, as those offered in this sale.

It is a real thrill to work with the owners of Mains Farm and Lakeview Ranch in staging this sale. When you see the offering you can understand why. Probably three of the best Shorthorn bulls to sell at auction in the United States this year will be selling in this event. The female offering is equally impressive...filled with quality individuals rich in dependable imported breeding.

The Shorthorn industry is on the upswing and now is a good time for every breeder to get his herd "shaped up" with a better herd bull and a few top females. This sale can help reputation herds, or newly formed herds, toward greater Shorthorn success.

Mark December 16th on your Calendar today and attend one of the most important breed auctions of the year.

BILL STUNKEL,

Sale Manager.

THE MAINS FARM CONSIGNMENT....

MAINS ROYAL KING, a proven bull selling in this sale.

Sandy Mackie and Mrs. James J. Brennen proudly pose with some of the many ribbons and banners won by the Mains Farm Shorthorns this year. The banner is for "premier breeder" honors at this year's Pacific National Exhibition, Vancouver, B.C.

I take this opportunity to welcome Shorthorn breeders to the Mains Farm first production sale and to give them the history (very young) of our herd.

In 1952 my late husband and I decided to have Shorthorns on our farm at Sequim. We bought quite a few at the Urealta herd dispersion at Edmonton, Alberta. We later attended the Femco dispersion and purchased our first bull, Femco Better News. In October 1954 we bought Millhills Matador at the Millhills Sale in Scotland. In October 1955 we bought Millhills Pauline 11th, the foundation of our Pauline family. The first calf of these two Millhills animals was Mains Pauline who became grand champion female at the Cow Palace in San Francisco in 1958.

Later we attended the Millhills dispersion and purchased a Blood Royal, a Cherrywood, and Eliza, and a Scottish Buttercup. Most of these lines are still being retained in our herd today. In 1958 we returned to Scotland and purchased Bapton Cavalier for our herd sire, and a grand one he was.

When my mother died in Scotland in 1960, we believed we would be in Scotland for many years, and with regret, decided to disperse the herd. This dispersion was the top sale of the year. Things were taken care of sooner than expected, and we were able to return to the Northwest in December 1961, purchasing our present acreage.

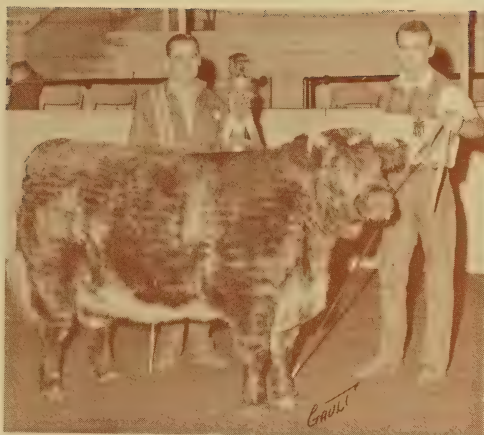

Mr. Brennen's wish at this time was to have a herd of 25 of the best quality Shorthorn breeding cows. His unfortunate motor accident in January 1963 cut short his plans. With the help of our son, Jamie, I decided to do my best to complete these plans. We were fortunate to engage the assistance of Fred Mackie, who had been our herdsman at Sequim, and also through the kindness of many breeders, were able to repurchase some of our old foundation females or their daughters.

We are pleased to be able to hold our first sale in conjunction with Lakeview Ranch. We hope you like our offering.

Mrs. James Brennen.

Mrs. James J. Brennen

Fred Mackie holds Mains Queen 2nd, grand champion female at this years Pacific International, Portland, Oregon. Jim Brennen holds the championship trophy and rosetta

Dear Friends:

It is with some regret and yet with some pleasure that we are holding this sale. I hate to see these fine animals leave Mains Farm, but yet I know they will be a joy to their future owners.

We have only sixty acres of pasture, and have reached the point where we must either clear more land or reduce numbers. We are selling animals that would otherwise never leave. Bapton Toreador is one of these. If it were not for the fact that we will only have a handful of unrelated cows left, and also a great number of his daughters left, he would stay here.

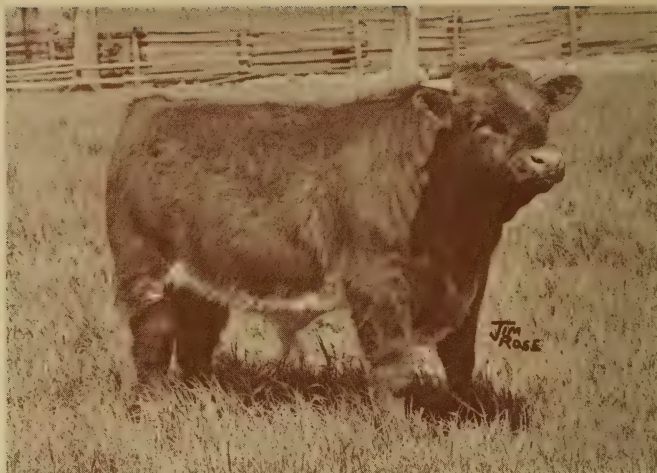

To keep the farm manageable and economically sound, we are offering in this sale some of the finest Shorthorns in the West. After hearing the comments of visiting breeders from throughout the country and abroad, we are offering for sale some of the finest Shorthorns in the United States. If you don't believe us, come and take a look. You won't be sorry you did.

The cattle will be in Spokane a few days before the sale. Be sure and see them before sale day, and be our guest Friday evening at the Davenport Hotel for cocktails 6:30 to 7:00 P.M. and dinner at 7:00 P.M. prompt.

I am looking forward to seeing you on or before December 16th.

Sincerely,

James A. Brennen.

BAPTON BRAVE ROBIN - was purchased by Denend Pedigree Farm at Perth in 1960 for 4800 guineas - a half share was retained by Bapton. He grew into a massive bull, with tremendous bone, and a great stock bull outlook, and he is one of the biggest bulls in the breed. He is a double grandson of the famous Bapton Constructor. His dam is an outstanding female and a uterine sister to Bapton Highway, who is being used with great success in Messrs. Dugan's famous Sittyton Herd in Argentina. Bapton Highway sired the junior and reserve junior champion at Palermo in 1961. The junior champion sold for 2,250,000 pesos (£10,000), an all-time record price for an Argentine-bred bull. Messrs. Dugan retained the reserve junior champion for use in their herd. Bapton Brave Robin's grandam, Tolquhon Snow Queen (by Bapton Principal), was purchased from her breeder, Mr. John Sleight, for 1000 guineas, and is one of the best cows in the Bapton Herd. She comes from the same family as, and is closely related to, the famous Kirkton Drum-Major, so successfully used by Senor Enrique Santamarina in the Argentine. The females by Bapton Brave Robin are really outstanding, and his early death was a great loss to the breed.

BAPTON TOREADOR - Probably the best imported bull in the West in many a day. He was the top-selling bull in the International Bull Sale, Brandon, in 1964. Our herd is not big enough to keep him as we have retained most of his daughters and will have very few cows left to breed to him. He is a sure breeder. His get in this sale will speak very well of him. He was imparted an evenness of great quality and grand style to his calves. We are retaining a one-third interest with the right to collect semen on request.

MAINS ROSEWOOD 3RD - Just a January 1967 heifer backed by a lot of good cattle. This line of Rosewoods traces back to the old Cherrywood cow that has given us four lovely females in a row. Her grandam is one of our better breeding cows. Sells open.

THE LAKEVIEW OFFERING.....

Stretch and size are typified in Lakeview Cloudburst 23rd by Mains Cloudburst
owned by Lakeview Ranch, Odessa, Washington.

Jake Walter was honored by his breed fraternity in 1961 as a "BUILDER OF THE BREED". Here is what The Shorthorn World had to say at that time.

"Jacob Walter, Jr., Odessa, Washington, has exerted a tremendous influence for good in an important cattle area. Despite a 3,013-acre wheat and grass operation and other business interests, he has found time to be one of the breed's most influential breeder fieldmen. His enthusiasm for our breed has been responsible for the establishment of new herds in the Inland Empire. Continued use of top sires and with the help of a capable son-in-law, the Lakeview Ranch herd, established in 1937, has been built into one of the industry's best. The Lakeview record in shows and sales and the large number of Lakeview sires now in the Northwest clearly establishes Jake Walter as one of the breed's finest builders."

WELCOME FROM LAKEVIEW

We are pleased to welcome you to the First Annual Lakeview-Mains Production Sale. We are offering the highest quality cattle with breeding which we are certain will interest you. These are animals that will fit into your herd and offer long service in your breed-improvement program.

The history of Lakeview herd, now one of the best-known and most-respected in the western United States, parallels an impressive breeding program. Our herd has been founded on some of the best families in the Shorthorn breed. Such proven sires as Cruggleton Garvie, Beaufort Bog Oak, Jolly Tar and Mains Cloudburst have produced top progeny, which in turn have been the basis of other noteworthy herds in many parts of the United States and Canada.

Our policy has been to grow out our best heifers and select from them the cows that best suit our purpose. Looking through the pedigrees of our cattle you will note that the dynasty of Lakeview Ranch is built upon principally the blood of Cruggleton War Bond, Cruggleton Garvie, Beaufort Bog Oak, Jolly Tar and Mains Cloudburst--and now Mains Prince Paul.

Almost every cow in the herd was bred at Lakeview Ranch, so we have a good knowledge of the performance of each individual. We are very fortunate in the first years of our business to secure two provensires. One, Cruggleton War Bond, was a son of Cruggleton Perfect, proclaimed one of the greatest bulls ever produced in Scotland. War Bond was imported from Scotland by Byron Hawks of Kootenai Valley Ranch. Another was Beaufort Bog Oak, purchased upon the dispersion of the Fair Meadows herd, owned by John Siverling and Byron Hawks.

We believe that this sale, one of the major Shorthorn events this year in the Pacific Northwest, will grow in succeeding years into a meeting place for cattlemen from many parts of the world. At today's sale and in the years to come you can be assured of quality sires, as well as dependable foundation females. Here today is an opportunity to obtain the same top quality for which Lakeview has long been known --top bulls and females, the products of more than 30 years of selective breeding.

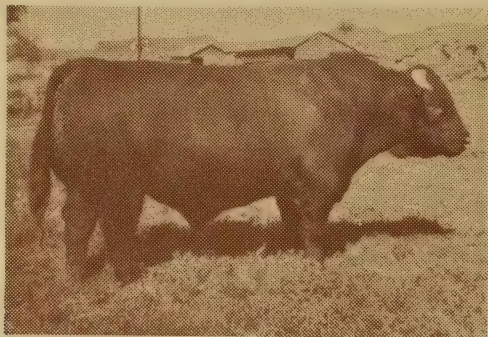

Jacob Walter Jr.

Carol and Don Evavold, partners in Lakeview Ranch, Inc., along with their fine family. Don is a past president of the Inland Empire Shorthorn and Polled Shorthorn Ass'n. This is a mighty fine pair of Shorthorn boosters.

Mrs. Jake Walter. Everyone in the Inland Empire knows this gracious, congenial lady. As is often the case in a successful enterprise, Rae plays an active role in the Lakeview Shorthorn project.

FAIR DUCHESS - A large cow that has been kept for her size and correct conformation. She has had a calf every year of her productive life. A good part of the breeding in our herd goes back to this cow. She was put into the sale by request. She has an August 18th white heifer calf by Mains Prince Paul and is now rebred to Lakeview Cloudburst 23rd.

A good set of young heifers at Lakeview Ranch.

LAKEVIEW DUCHESS 9TH - An outstanding daughter of Lakeview Duchess B1 that should make a great brood cow. An excellent club prospect for some boy or girl.

THE SIGN OF GOOD SHORTHORNS

STANDARD GUARANTEE

1. A - Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

B - All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

C - With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to seller.

D - When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

E - In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.

F - All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

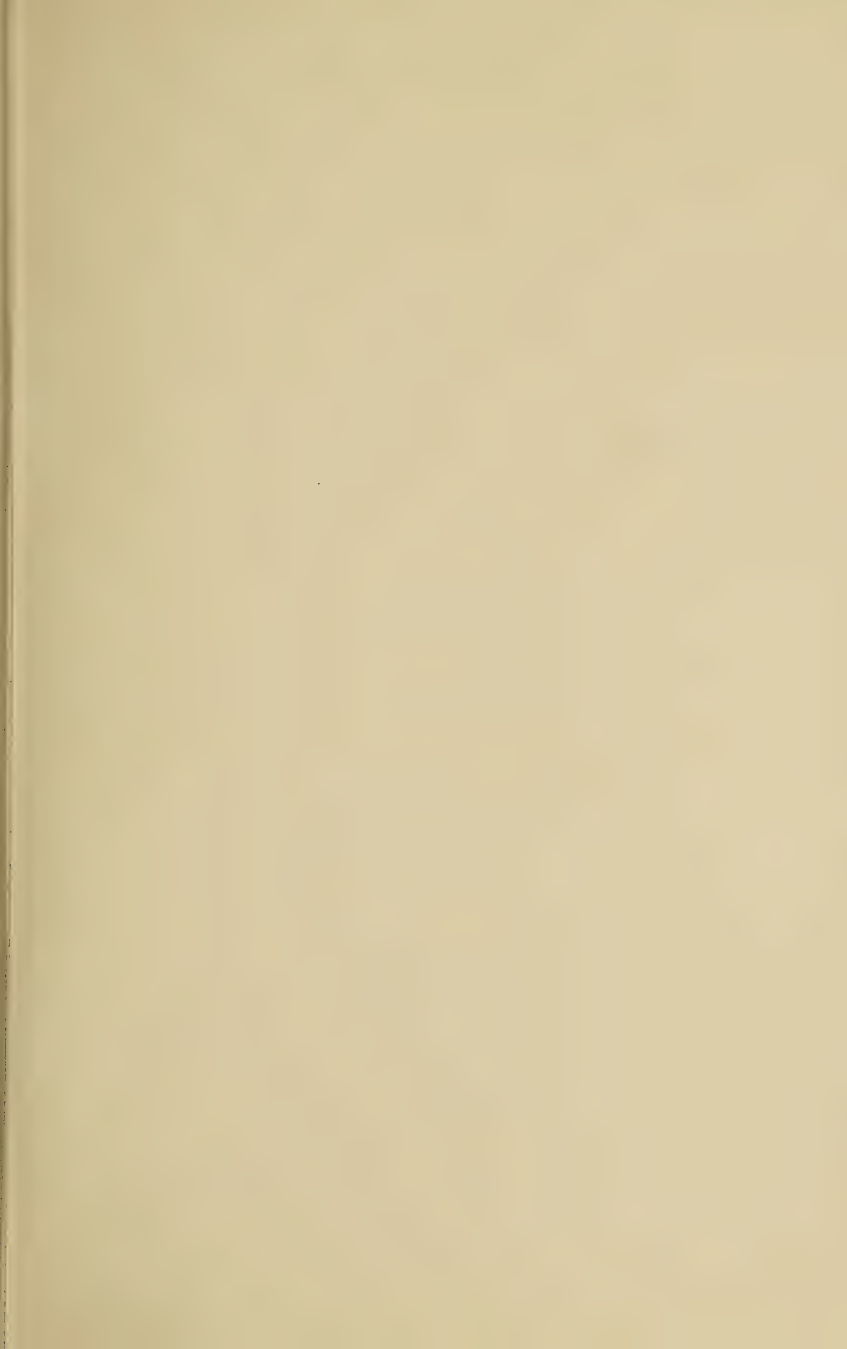

G - Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.

H - All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

2. SHIPPING ARRANGEMENTS: It is the obligation of the consignors and this association to see that all cattle are properly loaded on cars or trucks as directed by the buyers for shipment. Cattle will be at buyer's risk as soon as bid off, but every precaution will be taken to see that animals are cared for properly.

BESURE TO LEAVE DEFINITE SHIPPING INSTRUCTIONS AND CORRECT TRANSFER INFORMATION WITH THE SALES CLERK.

3. INSURANCE: Coverage may be secured at the time of sale.
